### Sponsors

#### Platinum Sponsor

SCO and HP have been partners in leading edge technology since the mid-1980s, when most PCs were single-task, single-user systems and the term "server" was unknown.

The HP/SCO partnership harnessed the latent power of microcomputers with SCO UNIX to bring mainframe and minicomputer capabilities like multi-user and multi-tasking to the desktop.

#### Gold Sponsor

Team 1 Systems, Inc. was founded in 1997 with the idea that 'white box' systems don't have to be low end, poorly supported

computers. Rather, a custom builder should bring value to their clients by providing a quality product at a fair price that is backed by unmatched support.
